INFORMATION DISCLOSURE STATEMENT

In accordance with 37 CFR § 1.56, Applicant wishes to call the attention of the Examiner to the reference(s) cited on the attached form PTO-1449.

This reference has been cited in a French office action in the counterpart French patent application. The French Patent Office considers this reference as technological background only. A copy of the listed document is attached.

The reference shows a vacuum cleaning tool having a brush roller driven by an air

turbine. In order to prevent injuries caused by the brush roller when the vacuum cleaner is lifted off the floor, protective devices are provided, for example, a brake for slowing the turbine and thus the brush roller (Figs. 3, 4 show air streaming in in opposite directions; Figs. 15, 16 show brake 67, 69); a flap closing off the vacuum flow (Fig. 6 at 37); a shield shielding the brush roller (Figs. 21-24) etc. The reference does not show a first flow connection and a second flow connection that allow the suction airflow to enter the turbine chamber and are arranged relative to an imaginary plane as defined in claim 1.

It is respectfully requested that any fees required and not enclosed herewith or any shortages in any fees be charged to Deposit Account 50-1199.

Consideration of the foregoing in relation to this application is respectfully requested.

Respectfully submitted January 15, 2004,
